Tina:

Per the report you gave me that TT used, the population is, "population according to the 2010 census". So, their population number is out of date. Our population and household numbers are from 2015 data. Unfortunately, they do not cite where MHI comes from. I did a search and could not find that number.

Jeff,

Attached is the 2016 wastewater survey that TT used as the source for MHI and population. Look forward to hearing your thoughts on this.
